Thanks Ron!

It's very easy:

1. At 7 pm, announce the start of the net, something like:

"This is the Tuesday Night W5SFA Net, all licensed amateurs are welcome to check in, Net Control tonight is Ron, K1PEC. Please check in based on your call sign suffix. A thru L will be first, followed by M thru Z. A thru L callsigns, please check in now."

2. As people check in, write down their call signs. If there is 5 seconds without any activity, read back the call signs that checked in over the air, then ask for more checkins.

3. When A thru L is complete (no one else has checked in), announce that M thru Z callsigns to check in.

4. Again, as people check in, write down their call signs. If there is 5 seconds without any activity, read back the call signs that checked in over the air, then ask for more checkins.

5. When M thru Z is complete (no one else has checked in), start with the call sign at the top of the list and ask if they have any comments for the net. Do this for each call sign on the list.

6. When you reach the end of the list, ask for any late check ins. Follow same procedure as before.

~~7. Announce the club banquet will be held on Saturday, January 21 at Cameron's place in Cat Spring. More information will be sent out in early January.~~

8. Ask if anyone has any additional comments for the net, to give their call.

9. When there are no additional announcements, announce something like, "The W5SFA Tuesday night net is now concluded, returning the repeater to normal operation. This is K1PEC clear".

Feel free to modify the verbiage to suit your style. Also, I try to send out an email reminder to the reflector a few hours before the start of the net. I also put a reminder alarm in my phone so I don't forget!

73,

Roger

**Subject:** Re: Net Next Tuesday

If no one else wants to take over the net on the 13th., I will do it. Roger, if you have something on the procedure that you can email us, that would be helpful. Have a good trip.

Ron, K1PEC
